Silver Wedding Package

This consists of an impressive array of effects and colours which fill the night sky. This will include mostly category four licensed fireworks and several of these would be colourful and impressive mortar shells which are only available to licensed operators. The cost for the silver wedding package is £895 and includes all site visits, risk assessments and insurance cover.

Gold Wedding Package

This has several bigger and more impressive fireworks, including many more mortar shells, some larger 5" & 6" size, which are identical to those used at major public displays. The cost for the gold wedding package is £1,195 and includes all site visits, risk assessments and insurance cover.

Platinum Wedding Package

As the name suggests this is a show that you wouldn't believe is possible for the money, and includes some special effect fireworks such as mortar shells which burst into a big red heart in the sky (see image in the fireworks area on our site). The cost for the platinum wedding package is £1,595 and includes all site visits, risk assessments and insurance cover.

We also undertake bigger shows for a variety of events, often in excess of £5,000 and all are bespoke designed to suit the venue and occasion.

A deposit equating to 25% of the full display is required to secure a specific date, and the full balance is payable a week before the display unless otherwise agreed.

Licensed professional firework displays require advance planning and we are frequently booked more than a year in advance for certain dates (especially November), please bear this in mind if you are aiming to have a display.
